

Recommendation For Instructor Certification

Candidate Name: John Smith
Chief Instructor: Kelly McInerney
Date: 2 Dec 2005

I am making a formal request to the Board Of Directors on behalf of the candidate above who wishes to be considered for promotion to the level of Certified Instructor. I believe he is qualified for this position, and have supplied the following information to justify the request:

My experience of this candidate as a martial artist over the last 8 years has proven to me that they are a dedicated individual who truly understands and positively promotes the Han Moo Kwan art form. They have an extraordinary willingness to learn. They listen well, and work hard to not only improve their skills but also strive for a full understanding of the changes asked of them. Upon occasion, they have uncovered or invented extensions to the art form in both basic training as well as sparring techniques.

My experience of this candidate as an instructor indicates strong potential in all areas of teaching, including good course management, excellent teacher-student rapport, and good follow-through. Students often seek them out for personal attention and often show great improvement under their guidance. More attention will need to be given in the areas of positive examples and motivation techniques, but I am certain that these will come with time.

I have verified his qualifications and believe he should be certified.

Kelly McInerney
Chief Instructor LM Han Moo Kwan Tae Kwon Do Club
